## AWARD MESSAGE

Shivam Raj is a critical member of the Interface team and has helped build complex interfaces for Division of Car Equipment (DCE) and Automatic Fare Control (AFC) for the Department of Subways. Shivam is technically very strong and complements his technical skills by easily working with the functional team to understand the requirements. Shivam is a quick learner and had to learn the Apache Camel tool on his own which was needed to implement these interfaces. In addition, Shivan has implemented best practices when moving data between systems. Shivam has great potential, and we are thankful for his work on the program and very excited to nominate him for this month.
